Information for Potential Project Supervisors

ELIGIBILITY

Project Supervisors must:

- Be faculty members who hold an eligible active NSERC research grant at the time of application.
- Be either the principal investigator or co-investigator of the grant.
- *MEDICINE: TO APPLY THROUGH THE FACULTY OF MEDICINE, YOUR NSERC GRANT MUST BE ADMINISTERED THROUGH THE FACULTY OF MEDICINE.
- *MEDICINE: Unfortunately, we cannot consider supervisors who have applied for, but have not yet received, an NSERC grant by the March 6th deadline.
- *MEDICINE: A supervisor may submit only one NSERC-USRA application to the Faculty of Medicine competition each year. Co-investigators are not counted in our quota of awards, but they may apply instead of the principal investigator on their grant.

The research project must be in natural sciences or engineering and is therefore supported by NSERC. Details and general guidelines for the eligibility of subject matter can be found at Selecting a Federal Granting Agency. Non-NSERC CRC or CERC grant holders are encouraged to send in their research proposal to CS&I&C ahead of time (prior to March 6, 2017) so it can be reviewed by NSERC to ensure the research is eligible under NSERC’s mandate. Please forward your proposal to the NSERC USRA Liaison Officer nserc.usra@ubc.ca.

Student Eligibility Criteria

NSERC encourages the participation of female students in the USRA program. To encourage aboriginal students to pursue graduate studies and research careers in the natural sciences and engineering, awards to aboriginal students are considered in addition to UBC’s quota.

The USRA research is a full time activity. Students should not receive academic credits for the work done during the term of the USRA. Award holders may take a maximum of one course in addition to their USRA with the agreement of their supervisor. If the course is during normal working hours, special arrangements with the supervisor must be made for the student to make up the time spent on the course. In particular, USRA holders are not permitted to do thesis research during the term of the award. In addition, the USRA program makes no provision for sick leave or other interruptions of awards. Please inform the Liaison Officer immediately should a work term be interrupted or terminated early for any reason.

Students must:

- Be a Canadian citizen or permanent resident of Canada
- Be registered in a bachelor's degree program at an eligible university (full-time or part-time) in at least one of the two terms immediately previous to holding the award. The terms of an academic year are: Summer (May 1 to August 31), Fall (September 1 to December 31), Winter (January 1 to April 30). Registration in either one of the two summer sessions will count as registration in that term.
- Have obtained, over the previous years of study, a minimum cumulative B- (68%) average
- Have completed (at the time you hold the award) all the course requirements of at least the first year of university study (or two academic terms) of your bachelor's degree (NOTE: 1st-year students applying to the Faculty of Medicine have not met this eligibility requirement by the competition deadline and are, therefore, unlikely to receive an award)
NSERC Undergraduate Student Research Awards (USRA) – 2017/18

Information for Potential Project Supervisors

In addition...

- If you already hold a bachelor’s degree and are studying toward a second bachelor’s degree, you may still apply for this award
- You may hold one university USRA and only one industrial USRA per fiscal year (April 1 – March 31)
- You may hold a maximum of three university USRAs and a maximum of three industrial USRAs throughout your undergraduate university career

UBC students may qualify for USRAs in industry or apply to work with supervisors at other universities. UBC faculty members can hire students from other universities, as long as they meet all eligibility requirements.

Graduating students are eligible to hold a USRA as long as they were registered in at least one of the two previous terms before holding the award, have not started a program of graduate studies and have met all other eligibility requirements of the program.

Students are not considered eligible for a USRA if:

- They have started a program of graduate studies in the natural sciences or engineering
- They are currently enrolled in an undergraduate professional degree program in the health sciences (e.g., M.D., D.D.S., B.Sc.N., B.Sc.Pharm.)
- They hold higher degrees in the natural sciences or engineering
- They have already held 3 academic USRAs

AWARD CONDITIONS

- Students must be engaged in research and development activities on a full-time basis (35 hours a week) during the tenure of the award (minimum of 16 consecutive weeks). Under exceptional circumstances students can work less than 16 consecutive weeks (prior approval from NSERC is needed and requests are to be submitted well ahead of the deadline for applications).
- **Minimum pay:** $6,076 over the 16 weeks (or $379.75/week). NSERC encourages universities to provide larger supplements if at all possible. All wages are paid out of the project supervisor’s account. $4,500 will be reimbursed to the same account two to three months after the tenure is complete. Travel allowances for non-UBC students who work with UBC NSERC grant holders can also be reimbursed (see below).
- **MEDICINE**: Students and supervisors may not submit more than one application to the Faculty of Medicine each year. Students submitting more than one application and/or supervisors sponsoring more than one student to Medicine will not be considered in the competition.
- **MEDICINE**: A maximum of one award per year per supervisor
- The USRA program makes no provision for sick leave or other interruptions of awards. Please inform the Liaison Officer immediately should a work term be interrupted or terminated early for any reason.
NSERC Undergraduate Student Research Awards (USRA) – 2017/18

Information for Potential Project Supervisors

REIMBURSEMENTS

Project supervisors will only receive funding if their student works:

- Full-time for a **minimum of 16 consecutive weeks** on the approved NSERC USRA project; and
- Is paid a **minimum of $6,076**.

Please note that $6,076 is the minimum for a 16 week award; if a student works more than 16 weeks, they must be paid at least $379.75/week for each additional week. It is important that the award winners are appropriately paid for the work they are doing.

Travel Reimbursements

Since students from other universities are eligible to travel to UBC and hold a USRA here, NSERC will reimburse the eligible travel expenses these students incur. The maximum allowance is an amount equivalent to economy airfare between the cities where the universities are located.

In addition...
- NSERC will pay the return travel costs only if the actual period of tenure is 12 weeks or more.
- NSERC will not provide a travel allowance for your spouse or children.
- This allowance is **not** designed to offset your daily commuting costs to and from the host university.
- NSERC will provide an allowance (as deemed reasonable by NSERC’s Finance Division) for ground transportation costs to and from your residence and your point of departure (e.g., airport, train station, bus station). Receipts must be provided.
- NSERC will not provide an allowance for the cost of transporting excess baggage or removing household effects.
- Frequent flyer points will not be reimbursed.
- NSERC will not reimburse travel expenses to and from field research locations other than the UBC campus.

**Travel reimbursement procedures:**

- The department collects all eligible travel receipts from the student and reimburses the student first by completing a travel requisition form.
- All copies of the travel receipts, a copy of the travel requisition form, and proof of reimbursement to the student (i.e. copy of your FMS ledger) should be forwarded to the Liaison Officer at the Centre for Student Involvement & Careers (see contact information below) no later than one month after the end of the student’s award.
- The Liaison Officer will claim these expenses from NSERC and, in turn, reimburse the faculties/departments (allow a few months of processing time).
APPLICATION PROCEDURES

1. The NSERC USRA program is administered and coordinated through the Faculty/School USRA Coordinators. Each faculty establishes procedures for identifying and ranking applicants and setting deadlines.

2. To apply, both project supervisors and students must complete and submit an online NSERC USRA application Form 202 part I (student) and Part II (supervisor) by clicking on “System Login” or, if you are a first time user, “Register”.
   - Instructions on how to complete the forms can be found on the NSERC USRA website.
   - Supervisors will need to include the student’s reference number on part II of the application.
   - Students also need to upload, with their application form, a scanned copy of their official transcripts including one copy of the back page legend.
   - Once completed online, a copy of the forms (Part I and Part II, as well as the student’s transcripts) have to be printed out and submitted to your Department/Faculty/School USRA Coordinator for review.
   - NSERC will not accept hardcopy forms so the official application must be completed and submitted electronically. The copies sent to the USRA Coordinator are only necessary for the internal review process.
   - After you have submitted the hardcopy print-outs of Form 202 to your Faculty Coordinator, and received her approval, you will need to log into your application and ‘Submit to LO’
   - *MEDICINE: 1 copy of the full application must be submitted in a sealed envelope with the name of the student and supervisor to: i) NSERC-USRA Awards (Medicine), Attn: Linda Herbert/Deborah Giaschi, Faculty of Medicine Dean’s Office (3rd floor of Woodward IRC on UBC Point Grey campus), or ii) Dr. Deborah Giaschi (Rm E300E, Shaughnessy Building, Children’s Hospital), by 4 pm on Monday, March 6, 2017.

3. There are a limited number of awards allocated to UBC, so USRA Coordinators have been asked to rank the eligible applications they receive. They will also create a contingency list of projects (B-list) in case higher ranked applications are withdrawn or ineligible. Deadlines for submission of all application forms are set by the USRA Coordinators. [*MEDICINE: 4pm, March 6th, 2017].

4. The Liaison Officer will review and confirm all applications in April.

5. Supervisors, using an ePAF in HRMS, will appoint students. Please refer to the ‘NSERC USRA Appointing Students 17-18’ info sheet for detailed instructions, available through your USRA Coordinator. (Do not appoint students before you have received this information).

Note: It’s usually the case that students will start work on their USRA before awards are actually confirmed by NSERC. Supervisors must start payments to students to whom they have offered positions without waiting for approval of the awards from NSERC. Supervisors must also continue to employ any students whose applications are rejected by NSERC for the remainder of the work term. Award letters for the summer term will be issued in July.

</tr>
</tbody>
</table>
| **USRA Placements** | Summer Term – May – August 2017 *(May 11, 2017)*  
Fall Term – September – December 2017 *(September 5, 2017)*  
Winter Term – January – April 2018 *(January 8, 2018)*  
*latest a student can start working on their award *(Regardless of the term in which you plan to hold the award, all applications are due by the deadline of March 6, 2017.)* |
| **Student Appointment Forms** | Department to submit an [ePAF](#) in HRMS, for their NSERC USRA candidate(s) by **Friday, April 14, 2017**. Payroll will no longer be accepting paper hardcopy SAFs (student appointment forms). Please contact your [payroll rep](#) should you have any questions about submitting ePAFs in HRMS. |
| **Travel Claim Forms** (visiting students) | Department to forward copies of travel receipts, [travel requisition form](#), and proof of reimbursement to the student to the CSI&C Office (1036 Brock Hall, Attn: NSERC USRA Liaison Officer) by **Monday, September 11, 2017**. |
| **Reimbursements** | The CSI&C office will reimburse department accounts in the amount of $4,500 for each USRA and for any eligible travel claims.  
- Summer term – October/November  
- Fall term – February/March  
- Winter term – June/July |

### QUESTIONS?

If you have read (i) the above material, (ii) information on the NSERC website, and (iii) information on the UBC Career Services website, and you still have questions, please contact your Faculty Coordinator (Dr. Deborah Giaschi; giaschi@mail.ubc.ca). As a second resource you can also contact:

**NSERC USRA Liaison Officer / UBC Centre for Student Involvement & Careers / nserc.usra@ubc.ca**
