Upcoming Events

[Diagnosing pediatric patients: When one size fits all isn't good enough](#)

Date: May 11, 2016; 5:30 p.m. - 7:00 p.m.

Location: Telus World of Science (1455 Quebec Street)

Join Genome BC to discuss an important part of the diagnostic toolkit-genomics. Hear from local experts working to diagnose and screen disease by investigating patients' unique genetic make-up. Registration free but required.

A Wave of Change: Implementing Personalized Medicine in BC

Dr. Catalina Lopez-Correa, Genome BC

Non-invasive Prenatal Testing – What's it all about?

Dr. Sylvie Langlois, Clinical Investigator, CFRI & Medical Director, BC Prenatal Genetic Screening Program

Rare Disease: From diagnostic odyssey to tailored care

Dr. Clara van Karnebeek, Pediatrician and Biochemical Geneticist at BC Children's Hospital

Understanding the Spectrum of Autism through Personalized Medicine

Dr. Suzanne Lewis, UBC Clinical Professor of Medical Genetics; Clinician Investigator, CFRI, BC Children's and Women's Health Center

[Your Gut, Your Health \(Public Lecture\)](#)

Date: May 18, 2016; 6:00-7:30 pm (doors at 5:00 pm)

Location: UBC Robson Square (800 Robson St., Vancouver)

Vancouver Coastal Health Research Institute is hosting a free health talk on inflammatory bowel disease: key facts and the latest research. Meet research leaders in gut health.

Speakers: Ms. Gail Attara, Ms. Mavreen David, [Dr. Fergal Donnellan](#), [Dr. Bill Sahl](#), [Dr. Ted Steiner](#).

Attend in person @ UBC Robson Square - or watch the live web stream and interact from home. [REGISTER HERE](#)

January 29, 2016

[Bilingual Babies Special Lecture w/ Dr. Janet Werker](#)

Date: May 12, 2016; Lecture: 5:30 – 6:45pm, Reception and lab tours: 6:45 – 7:45pm

Location: Telus World of Science (1455 Quebec Street)

Babies' first words are often seen as a milestone of early development. But enormous development has taken place before the first words are even formed. Dr. Janet Werker, UBC psychology professor and one of the world's leading developmental psychologists, explores the foundations of language learning in infancy and will be sharing her research in this public lecture titled Bilingual Babies.

After the lecture, guests are invited to a light reception and to see Dr. Werker's research first-hand at UBC's Living Lab at Science World.

Event Reminders

[12th Annual PCHRI Research Day: The Future of Research and Health Innovation](#) – May 9, 2016

[UBC Radiology Research Day 2016](#) – ABSTRACT DEADLINE: May 13; REGISTRSTION: May 27; EVENT: Jun 15, 2016

[SBN: Genome BC Poster Competition](#) –May 13 2016

[Clinical Research Ethics Board Office Drop-In Sessions](#) – Every 2nd & 4th Monday of the month

For additional event listing visit: <http://med.ubc.ca/current-learners/research/events/>.

Follow this [link](#) for a list of **ongoing events and seminar series** that may be of interest to MD students.

Additional Research and Scholarship Opportunities & Resources

[Summer Internship in Indigenous Educational Research – Application deadline extended](#)

Drs. Nadine Caron and Kendall Ho are looking for **one medical student and one student enrolled in one of the non-MD health professional programs at UBC** to work on their research project investigating whether Indigenous Traditional Medicine training intended for health care professionals in practice can be utilized and/or adapted for health care professionals in training. The students' role will include preparing an application for submission to the UBC Behavioural Research Ethics Review Board and performing qualitative and quantitative data collection. The work period will extend from June to August at 35 hours per week. **The application deadline is has been extended to May 20, 2016.** Please see the full position description [here](#) for the full project summary, student responsibilities and application instructions.

Reminders
