In this issue

Funding Opportunities & Awards

Funding Reminders:

Undergraduate Research Scholarship for Indigenous and Underrepresented Students
Tredwell Trainee READI Scholarship
Canadian Celiac Association Dr. J. A. Campbell Young Investigator Award
Canadian Cardiovascular Society Have a Heart Bursary Program

Ongoing Events:

Women's Health Seminar Series
Evening Comparative Physiology Seminar
Biodiversity Research Seminar Series
Neurology Grand Rounds Schedule
BC Neuropsychiatry Program Grand Rounds
Comparative Physiology Invited Speaker Seminar
Neuroscience Research Colloquium

Events

Upcoming Events:

CPD: What's New in Toxicology? What Every Acute Care Practitioner Needs to Know (Students/Residents Early Bird: \$150)
UBC Department of Emergency Medicine Research Day 2023
2023 Canadian Women's Heart Health Summit

New Announcements:

Undergraduate Academic Assistant Job Opportunity

Announcement Reminders:

Development of a simulation curriculum for diagnostic radiology resident physicians

Funding Opportunities & Awards

Funding Reminders:

	Award
31-Mar-23	Undergraduate Research Scholarship for Indigenous and Underrepresented Students
31-Mar-23	Tredwell Trainee READI Scholarship
30-Apr-23	Canadian Celiac Association Dr. J. A. Campbell Young Investigator Award
2-May-23	Canadian Cardiovascular Society Have a Heart Bursary Program

Events

Upcoming Events:

1-Apr-23 7:30am-4:30pm (Jim Pattison Pavilion, Vancouver General Hospital)

[CPD: What's New in Toxicology? What Every Acute Care Practitioner Needs to Know \(Students/Residents Early Bird: \\$150\)](#)

The BC Drug and Poison Centre's medical toxicologists will discuss recent changes in management of drug overdose. Program highlights include presentation of difficult management cases and discussions of controversial management areas. Toxicologists will demonstrate why management of each case is difficult and emphasize key management strategies while focusing on pearls and pitfalls in clinical management.

12-Apr-23 9:00am - 4:00pm (BC Children's Hospital Research Institute or Online)

[UBC Department of Emergency Medicine Research Day 2023](#)

The UBC Department of Emergency Medicine (DEM) is pleased to announce the return of an in-person Research Day! We are excited to welcome audience members and presenters to join us at the BC Children's Hospital Research Institute (Chan Centre Lecture Theatre & Chieng Family Atrium) for a full day of podium presentations on April 12.

Now in its 14th year, the event will include presentations by DEM or Pediatric Emergency Medicine (PEM) faculty and trainees on completed or planned research in emergency medicine. In addition, we are honoured to be joined by visiting professor Dr. Eddy Lang for a plenary presentation.

While we are looking forward to seeing you all, we recognize that some may not be able to join us in person. A Zoom option will be available for those who can only attend virtually.

28-29-Apr-23 (Pan Pacific Hotel)

2023 Canadian Women's Heart Health Summit

Proudly hosted by the [University of Ottawa Heart Institute's Canadian Women's Heart Health Centre](#), [Heart & Stroke](#), the [University of British Columbia, Centre for Cardiovascular Innovation](#) and the [Leslie Diamond Women's Heart Health Clinic](#), the Canadian Women's Heart Health Summit is the only event of its kind and has become the national reference point for health professionals seeking up-to-date knowledge of women's heart, brain and vascular health. Building on the success of the previous three Summits, we have assembled national and international experts and stakeholders to further advance women's heart, brain, and vascular health. Together, we will transform and enhance Canadian women's lives through research, awareness, policy development, and care. This is an accredited opportunity for knowledge exchange for a variety of stakeholders including primary care providers, cardiologists, neurologists, gynecologists, pharmacists, nurses, cardiac rehabilitation providers, allied healthcare providers, researchers, policy-makers, community partners, and women with lived experience.

Ongoing Events:

Date	Time	Where	Seminar	Affiliation
Mondays	12:00-1:00pm	Virtual	Women's Health Seminar Series	Women's Health Research Cluster
Wednesdays	4:00-5:00pm	Biosci room 4223	Evening Comparative Physiology Seminar	Department of Zoology
Wednesdays	12:00-1:00pm	2212 Main Mall	Biodiversity Research Seminar Series	Biodiversity Research Centre
Wednesdays	8:00-8:50am	Hybrid	Neurology Grand Rounds Schedule	Department of Neurology
Wednesdays	11:00am-12:00pm	Virtual	BC Neuropsychiatry Program Grand Rounds	Department of Psychiatry
Fridays	10:00-11:00am	Beaty Museum Auditorium	Comparative Physiology Invited Speaker Seminar	Department of Zoology
Fridays	11:00am-12:00pm	Hybrid	Neuroscience Research Colloquium	Djavad Mowafaghian Centre for Brain Health

Other Research Opportunities

New Announcements:

Undergraduate Academic Assistant Job Opportunity

Application deadline: April 5th, 2023

Drs. Jennifer Hutcheon & Jessica Liauw at the UBC Obstetrics and Gynaecology (OBGYN) Department are seeking UAAs to join the team and provide support to the project "Validating methods to identify early pregnancy loss using administrative health data", described herein as the "EPL project".

The EPL project aims to validate codes for early pregnancy losses generated from emergency department visits. We will obtain diagnostic and procedure codes from emergency department visits at two hospitals (Vancouver General Hospital and Nanaimo General Hospital), and compare the accuracy of these codes against a review of the original medical record.

Student Research News e-bulletin

March 31, 2023

The UAAs will support chart abstraction in this project. We are recruiting six (6) UAAs in total. Three UAAs based in Vancouver, and three UAAs based in Vancouver Island. This is a part-time, temporary position with a commitment of approximately 6-8h per week, from April 10 – May 31st (maximum of 32h in total for each UAA).

Click link above for more information.

Announcement Reminders:

Development of a simulation curriculum for diagnostic radiology resident physicians

Application deadline: applications will be received on an ongoing basis until August 2023

The University of British Columbia Department of Radiology is seeking medical students who are interested in medical education and diagnostic radiology to assist in the development of a simulation curriculum for diagnostic radiology resident physicians. Participating medical students will complete a mandatory orientation session and will then work independently to extract identified cases from the Vancouver General Hospital picture archiving and communication system (PACS), de-anonymize metadata, and upload cases to a commercially available PACS viewer. This educational opportunity will provide medical students interested in diagnostic radiology with invaluable experience both in the development of radiology-specific educational resources and in working directly in the radiology department. Participating medical students will have the opportunity to be involved as an author on medical education manuscripts arising from this work should they choose to be involved though this is not a requirement of involvement.

Medical students interested in participating should send a statement of interest no longer than 1 paragraph to Dr. Helena Bentley via email at bentley@alumni.ubc.ca.
