### Funding Opportunities & Awards

#### Funding Reminders:

Canadian Celiac Association Dr. J. A. Campbell Young Investigator Award  
Canadian Cardiovascular Society Have a Heart Bursary Program

### Events

#### Upcoming Events:

2023 Canadian Women's Heart Health Summit  
UBC Radiology Clinical Research Day 2023  
Orthopaedic Research Day

#### Ongoing Events:

Neurology Grand Rounds Schedule  
Neuroscience Research Colloquium

### Other Research Opportunities

#### New Announcements:

University of British Columbia Department of Radiology 2nd Annual MI-RADS Open House

#### Announcement Reminders:

Development of a simulation curriculum for diagnostic radiology resident physicians

## Funding Opportunities & Awards

### Funding Reminders:

Deadline	Award
30-Apr-23	Canadian Celiac Association Dr. J. A. Campbell Young Investigator Award
2-May-23	Canadian Cardiovascular Society Have a Heart Bursary Program

## Events

### Upcoming Events:

#### 28-29-Apr-23 (Pan Pacific Hotel)

#### 2023 Canadian Women's Heart Health Summit

Proudly hosted by the [University of Ottawa Heart Institute's](#) Canadian Women's Heart Health Centre, [Heart & Stroke](#), the [University of British Columbia, Centre for Cardiovascular Innovation](#) and the [Leslie Diamond Women's Heart Health Clinic](#), the Canadian Women's Heart Health Summit is the only event of its kind and has become the national reference point for health professionals seeking up-to-date knowledge of women's heart, brain and vascular health. Building on the success of the previous three Summits, we have assembled national and international experts and stakeholders to further advance women's heart, brain, and vascular health. Together, we will transform and enhance Canadian women's lives through research, awareness, policy development, and care. This is an accredited opportunity for knowledge exchange for a variety of stakeholders including primary care providers, cardiologists, neurologists, gynecologists, pharmacists, nurses, cardiac rehabilitation providers, allied healthcare providers, researchers, policy-makers, community partners, and women with lived experience.

#### 1-May-23 12:00pm to 4:00pm (Jim Pattison Pavilion, Vancouver General Hospital, or Online)

#### UBC Radiology Clinical Research Day 2023

Radiology Research Days will be occurring over two days. The first, Radiology Clinical Research Day 2023, will be held on Monday, May 1<sup>st</sup> from 12:00pm – 4:00pm at the Paetzold Auditorium (JPNN), Jim Pattison Pavilion, VGH, focusing on resident and fellow research. The second, Radiology Fundamental Science Research Day 2023, will be held in the fall (TBA) with the focus on our exceptional non-clinician scientist work. This expanded format will allow us to celebrate the rich and diverse science in our department with the needed time and large number of awards.

## 3-5-May-23 (Morris J Wosk Centre Dialogue, or Online)

### Orthopaedic Research Day

The UBC department of Orthopaedics and BC Orthopaedic Association (BCO) are hosting the annual Orthopaedic Update, a two day conference for orthopaedic surgeons across British Columbia to stay informed of current research and innovations in clinical practice. This year's theme- Bringing It All Together – features sessions on SCI care, patient appropriateness and optimization for surgery, orthopaedic oncology, radiculopathy and many more. This conference is also available to remote attendees via Zoom-Panopto livestream.

Fridays	11:00am-12:00pm	Hybrid	<a href="#">Neuroscience Research Colloquium</a>	<a href="#">Djavad Mowafaghian Centre for Brain Health</a>

## Other Research Opportunities

## New Announcements:

### University of British Columbia Department of Radiology 2nd Annual MI-RADS Open House

May 2, 2023

The University of British Columbia Department of Radiology has created an initiative entitled MI-RADS: Mentorship in Radiology to promote interest in diagnostic radiology and radiology subspecialties. We will be hosting our second annual virtual open house on Tuesday, May 2nd, 2023 at 6:00pm PDT via Zoom. Advanced sign up is required. All medical students are welcome to join!

## Announcement Reminders:

### Development of a simulation curriculum for diagnostic radiology resident physicians

**Application deadline: applications will be received on an ongoing basis until August 2023**

The University of British Columbia Department of Radiology is seeking medical students who are interested in medical education and diagnostic radiology to assist in the development of a simulation curriculum for diagnostic radiology resident physicians. Participating medical students will complete a mandatory orientation session and will then work independently to extract identified cases from the Vancouver General Hospital picture archiving and communication system (PACS), de-anonymize metadata, and upload cases to a commercially available PACS viewer. This educational opportunity will provide medical students interested in diagnostic radiology with invaluable experience both in the development of radiology-specific educational resources and in working directly in the radiology department. Participating medical students will have the opportunity to be involved as an author on medical education manuscripts arising from this work should they choose to be involved though this is not a requirement of involvement.

Medical students interested in participating should send a statement of interest no longer than 1 paragraph to Dr. Helena Bentley via email at [bentley@alumni.ubc.ca](mailto:bentley@alumni.ubc.ca).
