[BCCSU: 6th Annual BC Substance Use Conference](#)

[Providence Health Care: 2024 West Coast Conference on Aging](#)

Ongoing Events:

[Women's Health Seminar Series](#)

[Evening Comparative Physiology Seminar](#)

[Biodiversity Research Seminar Series](#)

[Neuroscience Research Colloquium](#)

[Comparative Physiology Invited Speaker Seminar](#)

Opportunities & Awards

New Funding Opportunities:

[Undergraduate Research Scholarship for Indigenous and Underrepresented Students](#)

Deadline: 31-Mar-24

Amount: \$2,500

The purpose of this top-up scholarship is to help fund a stipend for an Indigenous undergraduate student, or if no suitable candidate is found, for underrepresented undergraduate students who will be working on any topic of research within the Department of Orthopaedics at UBC over a summer work term (May- Aug). The student must be supervised by a Professor/clinician within the Department of Orthopaedics.

Funding Reminders:

Deadline	Award
17-Mar-24	Child Neurology Foundation Neurodevelopment Disabilities Summer Research Scholarship
18-Mar-24	Golden Student Summer Fellowships
25-Mar-24	UBC FoM Multidisciplinary Research Program in Medicine (MRPM) : Student applications are now open to 1st year MD students and non-MD undergraduate students!
30-Apr-24	Canadian Celiac Association Dr. J. A. Campbell Young Investigator Award
7-May-24	Canadian Cardiovascular Society Have a Heart Bursary Program

Events

Upcoming Events:

21-Mar-24 (9920 Blusson Hall and Zoom, Faculty of Health Sciences SFU)

[FHS Research Seminar – Pacific Institute on Pathogens, Pandemics and Society \(PIPPS\) Speaker Panel](#)

This event is hosted by Faculty of Health Sciences, SFU.

The speaker panel will include: Ben Ashby, Ravneey Mundi, and Prem Gundarah

For additional details and abstracts for the presentations, please visit the website above.

17-Apr-24 (Chan Auditorium, BC Children's Hospital Research Institute and Online)

[Increase BC: Interdisciplinary Conference in Rehabilitation Science BC](#)

Interdisciplinary Conference in Rehabilitation Science of BC (INCREASE BC) is a collaborative initiative between the UBC Division of Physical Medicine and Rehabilitation, Rehab Research Program, Vancouver Coastal Health Research Institute

Student Research News e-bulletin

March 15, 2024

(VCHRI), and the UBC Rehabilitation Sciences Executive Committee. The mission of INCREASE BC is to improve research in rehabilitation, which enables us to advance collaborative rehabilitation care and improve the lives of people living with disabilities, injuries, and chronic health conditions in British Columbia. The day is open to researchers, rehabilitation clinicians, physicians, students, and those with an interest in rehabilitation science and research. The keynote sessions will revolve around the theme of **“Integrating artificial intelligence in rehabilitation”**.

31 May-24 to 1-Jun-24 (Vancouver Marriott Pinnacle Downtown Hotel)

BCCSU: 6th Annual BC Substance Use Conference

This year's conference will be held May 31 and June 1, 2024. To enable province-wide participation, we will be hosting a blended conference this year, with both virtual and in-person options for attendance. The in-person program will be held at the Vancouver Marriott Pinnacle Downtown Hotel.

The conference theme this year is *From Idea to Implementation: Putting Evidence, Experience, and Ways of Knowing into Action*. We hope this theme will facilitate discussions focused on ways to implement new and innovative research, clinical guidance, and accumulating clinical and lived experience into an accessible, flexible, inclusive, equitable, and person-centred system of substance use care that is able to adjust to the rapidly evolving needs of people who use substances.

31-May-24 to 1-Jun-24 (Pan Pacific Vancouver)

Providence Health Care: 2024 West Coast Conference on Aging

Step into the 2024 West Coast Conference on Aging, a visionary event poised to redefine the future of seniors' care. Here, distinguished speakers will illuminate paths towards a more equitable healthcare system for our aging population.

This dynamic two-day experience brings together some of the most innovative people in health care—leaders, clinicians, change makers, people with lived and living experience, and policymakers—in a powerful exchange of ideas and solutions. Delve into crucial discussions, covering topics from the socioeconomic dimensions of aging, to the unique health and wellness experiences of Indigenous peoples and 2SLGBTQIA+ individuals across the spectrum seniors' care services. Discover how we can integrate and elevate person-centered care philosophies across all healthcare services, fostering a culture of inclusivity and deeper understandings.

Explore new horizons in clinical care and support services, focussing on those living with intellectual disabilities and dementia.

Engage in thought-provoking conversations about creating nurturing environments for seniors, including those with histories of trauma and substance use.
